### REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The prior art of record does not disclose an apparatus for servicing an automobile fluid comprising a manifold defining a first manifold port for coupling to the inlet port, a second manifold port for coupling to the outlet port, a fresh fluid manifold port, a used fluid manifold port, and a fluid transfer circuit, a first valve having a valve inlet port in communication with the second manifold port and a valve outlet port in communication with the first manifold port and the used fluid port, the first valve being selectively operable to place the second manifold port in communication with either the first manifold port or the used fluid manifold port; a fresh fluid source coupled to the fresh fluid manifold port; a common pump interposed between the fluid manifold ports and the first manifold port for pumping a fluid from either of the fluid manifold ports to the first manifold port; a second valve having a valve outlet port in communication with the common pump and a valve inlet port in communication with the used fluid manifold port and the fresh fluid manifold port, the second valve being selectively operable to place the used fluid manifold port or the fresh fluid manifold port in communication with the first manifold port; whereby, upon coupling the first manifold port to the inlet port and the second manifold port to the outlet port, the subsystem pump may be activated and the common pump may be selectively operated to direct at least one fluid through the fluid transfer circuit as determined by the selective operation of at least one of the valves.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
